## Leather Care Tips

1. Never use any type of paint or chemical product near your leather furniture. Keep cleaners, bleach, glue, solvents and nail polish away from your leather furniture. Avoid using any type of solvent or oil-based product.

2. Place your furniture a minimum of 30 cm from any type of heat source, when exposed to heat sources leather becomes dry, hard and prone to cracking.

3. Avoid putting your furniture in direct sun light.

4. Keep domestic animals away from your furniture. Their claws, saliva and body liquids can damage it.

5. Dust your leather furniture like any other type of furniture in the house. Dust your leather furniture weekly with a damp cloth in order to remove all dirt and grit

6. If your leather furniture has been stained clean immediately with a damp cloth and 0.2% neutral soap. Dry with a soft cloth.

7. Avoid using or placing sharp objects on leather goods. Leather is very durable, but not accident or damage proof.

8. Air the room regularly.
